Sobo S GOLD 08

OIL PLATFORM RIGWASH & DEGREASER

What is Sobo S Gold 08?

An internationally approved offshore oil degreaser and rigwash that efficiently removes oil and grease contamination.

Both Marine friendly and separator friendly, Sobo S Gold 08 is made from a blend of biodegradable surfactants and wetting agents.

- pH below 9
- Low to medium foamer
- Approved for use in offshore installations

PACKAGING

4 x 5L, 25L, 200L & 1000L

7 reasons to choose Sobo S GOLD 08

- 1 Fast & powerful**
quickly removes grease & oil contamination
- 2 Approved for Offshore Use**
OCNS Gold Standard with no product warnings
- 3 Approved in Norway**
for Offshore Use (OCNF)
- 4 Emulsion free**
Rapid separation of oil phase from rinse water
- 5 Medium foamer**
Shows where you have cleaned without excessive foaming
- 6 Economical - capable of significant dilution**
standard dilution rate of 2 - 6%
- 7 Locally manufactured**
quick delivery & lower carbon footprint

APPLICATION

- Apply by contact, dip, immersion or spray application.
- User as supplied for heavy duty degreasing
- Dilute 4-6% for general rig wash activity and janitorial cleaning
- Dilute to 2-4% when used as an industrial laundry additive
- Dilutions below 1:2 are not classified as hazardous

Sobo QB GOLD 08

QUICK BREAK DEGREASER

What is Sobo QB Gold 08?

An aqueous oil degreaser with rapid quick break properties to produce emulsion free rinse water.

Ideal for the removal of oils and greases from oil pollution equipment, hydro power stations, offshore platforms and for cleaning in similarly environmentally sensitive areas.

Recommended for resolving discharge consent problems when cleaning in environmentally sensitive areas.

- Approved for use in offshore installations.
- Hazard label free.

PACKAGING

4 x 5L, 25L, 200L & 1000L

7 reasons to choose Sobo QB GOLD 08

- 1 Highly effective**
Very fast quick break degreaser
- 2 Approved for Offshore Use**
OCNS Gold Standard
with no product warnings
- 3 Suitable for marine use**
and other environmentally sensitive areas
- 4 Emulsion free**
Quick separation of
oil phase from rinse water
- 5 Versatile**
Suitable for cleaning
oil contaminated birds & wildlife
- 6 Economical - capable of significant dilution**
dilution rates as low as 4%
- 7 Hazard label free**
Non-hazardous to the user or environment

APPLICATION

- Apply by contact, dip, immersion or spray application.
- User as supplied for general degreasing
- Dilute 4-6% for maintenance cleaning

Lemsolv GOLD

GREASE REMOVING SOLVENT

What is Lemsolv Gold?

An internationally approved offshore grease removing solvent, designed for wire line cleaning.

Also suitable for pre-cleaning treatment of heavily soiled items, prior to cleaning by aqueous degreaser.

Excellent for cleaning precision metal or plastic components and electrical components.

- Low hazard profile
- Low environmental impact
- Approved for use in offshore installations

PACKAGING

12 x 500ml trigger sprays
4 x 5L, 25L, 200L & 1000L

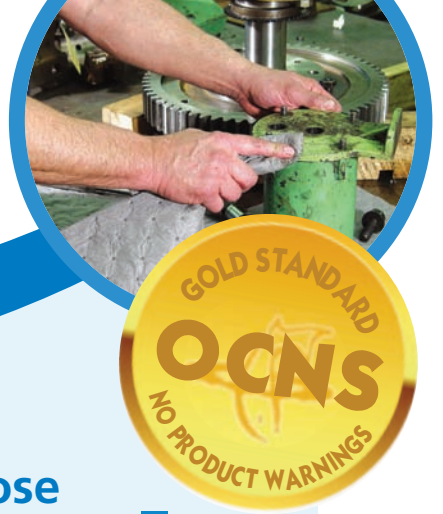

7 reasons to choose Lemsolv GOLD

- 1 Highly effective solvent**
designed for removing wire line grease
- 2 Approved for Offshore Use**
OCNS Gold Standard
with no product warnings
- 3 Dries rapidly**
with no residue
- 4 Separator friendly**
Contains no emulsifiers
- 5 Versatile**
Suitable for general degreasing
& for pre-cleaning heavily soiled items
- 6 High flash point**
above 70°C
- 7 Component safe**
for use on precision & electric components

APPLICATION

- Used in immersion cleaning of components and for pre-cleaning heavily soiled items prior to aqueous degreasing.
- Can be used a supplied in dip tanks, spray machines and ultrasonic baths.
- Also available in trigger sprays for benchtop use.
- Do not use on live equipment.
